

My Passport™ Elite™ Portable Hard Drives

Luxurious Soft-touch Finish
Capacity Gauge
Backup and Sync Software

My Passport holds everything
I need and helps me look
good behind the camera.

—Caroline Scott
Producer

Beautiful Exterior. Vast Interior.

A luxurious, soft-touch finish makes My Passport Elite portable hard drives easy to grip, comfortable to hold, and beautiful to show off to your friends. Combine that with mega-capacity and a capacity gauge to show you how full your drive is, plus backup, sync and encryption, and remote access software and you'll understand why we call these little drives Elite.

- **USB Powered** – Powered directly from the USB port on your PC. No separate power supply is needed.*
- **Automatic backup** – Set it and forget it; every time you plug it in, your data is automatically backed up.
- **Synchronized and secure** – Take your critical data with you. Plug My Passport into any PC, edit files, read e-mail, and view photos. Then sync all of your changes back to your home or office computer. Your data is protected with 128-bit encryption. *(Windows® only)*
- **Remote access** – Retrieve a forgotten presentation or file from the road. Connect My Passport to any PC and run MioNet® Key software to remotely access files, music, and photos from any of your computers with MioNet software installed. Free for the life of the drive. *(Windows only)*

*An optional cable is available for the few systems that limit USB power.

PUT YOUR LIFE ON IT®

My Passport Elite Portable Hard Drives

Interface

USB 2.0
